 Education

Bachelor of Science in Computer Science

National Technical University of Athens, Greece
2007 - 2011

Results-driven Cloud Architect and Cybersecurity Specialist with 15+ years of IT expertise, specializing in Azure AD, Microsoft 365, and multi-cloud environments. Proven track record in designing secure, scalable cloud solutions and leading digital transformation initiatives. Expert in identity management, compliance frameworks, and enterprise security architecture.

 Professional Experience

 Senior Cloud Architect

TechCorp Solutions | Athens, Greece
January 2022 - Present

→ Architected and implemented zero-trust security model for Fortune 500 client using Azure AD Premium and Microsoft Defender suite

- Led migration of 50,000+ users from on-premises AD to Azure AD, reducing authentication issues by 85%
- Designed multi-cloud disaster recovery solution spanning Azure, AWS, and GCP with 99.9% uptime SLA
- Implemented automated compliance monitoring using Azure Policy and Azure Monitor, achieving 100% CIS compliance
- Mentored junior architects and conducted security awareness training for 200+ employees
- Reduced security incidents by 60% through proactive threat hunting
- Saved €2.5M annually through cloud optimization and reserved instances
- Implemented automated backup solutions reducing RTO by 75%

🔵 Cybersecurity Consultant

SecureCloud Systems | Remote

March 2019 - December 2021

- Conducted comprehensive security assessments for financial institutions under PSD2 and GDPR requirements
- Designed and deployed Microsoft 365 security stack for enterprise clients, including Defender for Endpoint and Identity
- Developed custom security monitoring solutions using Azure Sentinel and KQL queries
- Led incident response for major data breaches, minimizing impact and ensuring regulatory compliance
- Created security documentation and procedures for ISO 27001 certification
- Achieved SOC 2 Type II compliance for 3 major clients
- Developed automated vulnerability scanning reducing exposure time by 80%
- Trained 150+ IT professionals in cloud security best practices

🔵 IT Infrastructure Manager

GlobalTech Enterprises | Athens, Greece

June 2015 - February 2019

- Managed enterprise IT infrastructure serving 10,000+ users across 15 countries
- Led migration from legacy systems to Microsoft 365, improving productivity by 40%
- Implemented Azure AD Connect and Azure AD Premium for hybrid identity management
- Developed business continuity and disaster recovery plans with 4-hour RTO
- Managed vendor relationships and negotiated contracts saving €500K annually
- Successfully migrated 100+ applications to cloud with zero downtime
- Implemented multi-factor authentication reducing unauthorized access by 95%

→ Established ITIL-based service management processes

Systems Administrator

TechSolutions Ltd | Athens, Greece

January 2011 - May 2015

- Administered Windows Server environments and Active Directory infrastructure
- Implemented backup and recovery solutions using Veeam and Azure Backup
- Deployed and managed VMware virtualization environment
- Provided technical support and troubleshooting for enterprise applications
- Participated in infrastructure upgrade projects and capacity planning
